The Honorable Robert E. Gerber
United States Bankruptcy Court
Southern District of New York
One Bowling Green
New York, NY 10004-1408

Re: Bankruptcy of General Motors Corporation:

Dear Judge Gerber,

I am an attorney with residence in Connecticut. I am also a former Time Magazine Automobile Award Winner Dealer. I am a former National Automobile Dealer Association Director.

My enclosed resume reveals that I graduated from Boston University School of Management and its Law School in six (6) years [accelerated program] and received both BS and JD degrees. I also have an LL.M from New York University School of Law.

While at Boston University School of Law, I received the American Jurisprudence 2d Prize for Bankruptcy and the highest grade in Securities Regulation. At New York University School of Law, I worked daily off Wall Street for a then major brokerage firm.

I am one of only a minority of individuals that have a very considerable understanding of the Detroit 3 debacle. My immediate family spanned over fifty (50) years in dealer automotive involvement.

When you factor in an uncle and cousins, who were likewise dealers, I believe, probably close to one (100) hundred years of connection.

My intent in contacting you is to offer any assistance with regard to the Herculean decisions you will have to determine. Issues like the rule of law versus federal government social and political involvement with respect to bondholders, just to mention one dimension, raises unique considerations. Furthermore, my past active involvement in the auto industry coupled with a legal education offers a comprehensive understanding of this industry.

Again, if I can be helpful, in any reasonable way, I am a mere two (2) hours from your courthouse.

Parenthetically, I have written several documents commencing last fall, and given to US Senator Christopher Dodd[Chairman, Senate Banking Committee], about the Detroit 3 survival, manufacturer vehicle warranty administration after bankruptcy, how to jump-start vehicle sales and past alliances between foreign automotive manufacturers and the Detroit 3.

Thank you for your time.

Respectfully,

A handwritten signature in black ink, appearing to read "Samuel H. Chorches". The signature is fluid and cursive, with a large initial 'S'.

Samuel H. Chorches
